

Bell is a full service subrogation firm that specializes in outsourcing, arbitration filing, no-fault, med-pay, uninsured motorists claims, and claim file reviews. Over the past 45 years, Bell has been a strategic partner within the insurance industry delivering best-in-class results while delivering world-class customer service.

Subrogation Specialists Since 1976

Why Bell?

Bell is dedicated to maximizing our clients revenue. We are the industry leader in claim recoveries in terms of net dollars recovered and we are proud to extend our intellectual capital to significantly improve your working capital. Our approach is simple. Provide best-in-class performance by empowering our subrogation experts with cutting edge technology and a solution based consultancy mindset.

MULTILINGUAL CAPABILITIES

Bell has a large bilingual staff that offers 24/7 account servicing functionality. We also have the ability to use foreign language translators that allow us to talk with individuals in over 200 languages.

REGULATORY COMPLIANCE

Bell has implemented a robust compliance management system. As the regulatory environment is constantly evolving, Bell utilizes a variety of sources of information to proactively update its compliance management system.

What We Offer

SUBROGATION PROCESSING

Bell has been servicing the insurance industry for 45 years and is recognized today as one of the most respected subrogation firms. Through the integration of advanced system technology and subrogation expertise, our company has mastered the servicing of uninsured motorist referrals, third-party carrier claims, arbitration file preparation, no-fault, and med-pay claims handling.

UNINSURED MOTORIST PROCESSING

All uninsured motorist business is serviced by a carefully selected team of tenured, internal hires that undergo a comprehensive subrogation training program. The skill level and consistency with which we service each responsible party represents a key competitive differentiator.

PAYMENT PLAN MONITORING

Bell will arrange and manage suitable payment arrangements in accordance with all/any client-specific requirements. Our recovery system manages all payment plans, and automated system strategies are designed to monitor and update established arrangements.

SKIP TRACING & ASSET SEARCH

Through our economies of scale, we have been able to negotiate virtually unlimited online search capabilities with our asset and skip tracing vendors. On suit-worthy accounts, the identification of real property greatly assists our pre- and post-legal recovery efforts.

ARBITRATION

Bell is one of the most successful subrogation firms submitting cases to arbitration forums. Our arbitration specialists prepare well-crafted contentions best positioned to achieve a favorable outcome.

POLICYHOLDER UPDATING

Bell provides policyholders with up-to-date information (notices, website, and toll-free lines) when any meaningful event occurs during the recovery cycle. One of the key objectives is to set realistic expectations regarding the likelihood of deductible reimbursement.

THIRD-PARTY CARRIER PROCESSING

Whether submitted as a direct referral or identified as having coverage from our uninsured motorist placement base, our team of seasoned specialists will engage insightful negotiations with adverse carriers to maximize recovery.

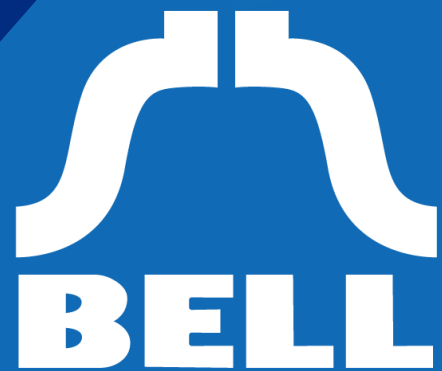

LITIGATION MANAGEMENT

Bell takes responsibility for the selection, retention, and oversight of attorneys country-wide who deliver cost-effective results and provide effectiveness in the handling of subrogation cases.

LICENSE SUSPENSION

Bell will review all accounts that meet client and state-specific suspensions guidelines and initiate license suspensions by submitting the required documents to the DMV on our client's behalf.
